

The *Early Choices*[®] - Integrated Adult and Baby Toilet Seat

10 Reasons to Buy our Three Piece seat.

- 1. Early Choices[®] Reduces Diapers**, by getting kids 'toilet trained' easier and months sooner. Being DIAPERWISE saves money, and really helps the environment. This is simple, green ECO-NOMICS that make sense.
- 2. Children love to use Early Choices[®]**. They easily flip the child seat into place; one seat for kids, and a second seat for adults. Great for toilet training, and transitioning to the regular sized seat. And it will not pinch the skin.
- 3. Parents love it.** There is no messy clean-up, as with potty type seats, and you can be sure that your child is safely seated every time. No more fall-ins, or loose seats that need to be secured or supervised with each use. A permanent seat for the whole family.
- 4. Early Choices[®] is always ready for everyone to use**, without clutter or assembly. Held inside the lid, the child seat flips down in an instant, and can be removed for storage in less than a minute. It always looks and functions like a regular seat. This is a HYBRID products that fuses temporary kids products with permanent regular seats.
- 5. It works as good as it looks**, unlike many flimsy temporary units out there. Avoids the stigma with many 'baby' products – trained children resist going back to a 'baby' product.
- 6. Lifetime Guarantee.** *Early Choices[®]* is a very sturdy well-built seat made to last.
- 7. It is easy to clean.** "Twist-N-Pull" the hinge pins and all parts come free of the hinge base for complete cleaning access. It has no small crevices to clean. Very Hygienic.
- 8. It fits all standard round toilet bowls** – and an elongated bowl version will be available soon. Made in Two colors, White and bone.
- 9. It is a patented product** with features not available anywhere else in the market place.
- 10. Children can make their own decision** about when to use *Early Choices[®]*.
Builds confidence and independence in our youth.

Ultimately, everyone gets toilet trained.
